

Prime Panels – Qualtrics Setup

Setup includes two steps:

1. Capture a parameter representing a participant's assignment ID that CloudResearch passes to your study. This will add a unique participant ID to your data file.
2. Set up a redirect at the end of your survey to a CloudResearch URL. This ensures that only participants who completed your study will be paid.

Step-by-step Instructions

1. How to capture the assignment ID

- a. Click on **SurveyFlow**

- b. Click on **Add a New Element Here**

- c. Click on **Embedded Data**

- d. Enter **aid** into the field (*all lower case*)

2. How to set the end of survey redirect

a. Click **Add a New Element Here**

b. Click on **End of Survey**

c. Click on **Customize**

d. Check **Override Survey Option**

Notes

- In the event that participants completed your study and you want to reject their work, send their AIDs to CloudResearch within 7 days. New participants will be added to replace them, at no charge.
- Alternatively, if you are routing unqualified participants on your study, please set up a different end of survey termination block and send participants to the link:
